Dr. Foy will lecture in the Academy of Music on Saturday evening, 24th inst., for the benefit of St. Paul's Church. The subject of the lecture is not yet determined, but the public may rest assured the discourse will be good: full of fun, sound philosophy, and valuable instruction. The admission price will be 25 cents for grown folk, and 10 cents for children under twelve. Tickets will be put on sale this week.

Rev. B. E. H. Warren, we learn, has been returned to the Belleview circuit, M. E. Church, South. In the two years past Mr. Warren has had charge of the same circuit, and has had wonderful success, he having received in the two years 326 members into the communion of the church, and otherwise building up the cause. Mr. Warren informs us that he will make no changes in his Sunday appointments, but will carry out the

program of last year. The ball given by the Pilot Knob Lodge, A. O. U. W., was a success in every particular. The hall was well filled, and the music the best to be had in the country. At the same time both sexes and all classes will do well to make a note hereof.

A brilliant entertainment season is about to be inaugurated in Ironton that promises to surpass anything ever before attempted here. There is no reason why this should be a dull place even during the winter. It certainly won't be this year, if the programme now arranged is carried out. Next week an announcement will appear in this paper of the first entertalnment to be given. It will come off early next month, and our citizens may prepare themselves for something fine-something entirely new.

The Belleview Trouble.

As our readers are aware, a long and fierce feud between factions of the Baptist Church in Belleview, have racked that community and utterly broken up the peace and harmony of the neighborhood. The church building was burned to the ground several weeks

ago-whether through accident, or by incendiarism, is of course not exactly known; but most persons believe that the latter was the cause. Believing that, a purse was quietly made up and a detective sent for. He came a couple of weeks ago, and, after the lapse of Mail and Express. No. 601....... 1:01 P. M. Belleview, charging him with the crime. Mr. Te as Express, No. 603,..........12:19 A. M. Areadia Accommodation, No. 609. . 7:35 P. M. F. P. ADAMS, Agent.

Russell was promptly arrested, and brought to Ironton last Thuasday. As soon as the

amount of bail was determined by the justice, the bond was executed, with the names of some of the best men in the county as sureties. The preliminary examination was " 12:45 P. M | set for the ensuing Monday, when all the par-preliminary skirmishing, the prosecuting attorney concluded to defer the case until the meeting of the grand jury; and so the matter hangs. We doubt, however, its ever be-

ing taken up.

The character of Mr. Russell has always been above suspicion. He is a well-educated. intelligent young man, and we do not know of any person in the county less likely to commit a crime of any kind. The detective claims that Russell made a "full confession" to him-an utter stranger! This puts Mr. R. down in the roll of fool as well as knaye, and the absurdity of the thing is apparent at a glance. Mr. Russell's father is one of the "outs" of the church, and his friends claim that the detective was set upon the son to humiliate the father, who has lived an honorable and Christian life for many years in Belleview-upright, just and kindly in all his intercourse with his fellow man. Whether this be true, of course we do not know; but, if so, the attempt has signally failed. The fair fame of the son is as unsullied as before the charge was made.

Much more might be said in reference to this matter, but with these few remarks we prefer to let it drop. The best thing to be done now is to bind up the wounds that threaten the welfare and life of that prosperous community, and let time work the cure that will come under the proper conditions. In other words, let us all practice a little of one of the lay delegates to the next General that Christian virtue so loudly mouthed in Conference, to be held at Richmond, Va., in every corner-church on every Sabbath day.

From Goodwater. GOODWATER, Mo., Oct. 2d, 1885. Ed. Since that time it has rained almost incessantly; hence the farmers who, like myself, had to cease plowing, because of the extreme dryness and hardness of the ground, are now compelled to wait until next week, if not longer, for the ground to "dry out," before resuming work in that line. But little has been accomplished during this week, owing to the utter unfitness of the weather for out-door employments. We shall no doubt have "killing frosts" ere the close of

Your correspondent and family attended divine services at our schoolhouse during a portion of the time that the revival was in progress at that place.

On Sunday, 27th ult., at 11 A. M., Rev. Mr. Huddleston, of the M. E. Church who conducted the exercises during said revival, preached from II Kings, vii, 3: "And there were four leprous men at the entering in of the gate: and they said one to another, Why sit we here until we die?" The reverend gentleman's effort was evidently a labored one and failed to have the desired effect, viz: that of arousing sinners to a sense of their soul's diseased condition and a consequent yearning for the application of the healing waters from the cleansing stream by the Great Physician. At about 7:45 P. M. the same minister delivered an excellent discourse upon the following text: "If in this life only we have hope in Christ we are of all men most miserable, I Cor. xv, 19. Tuesday night, 29th ult., it was very dark and rainy; a small congregation met at the school-house, but owing to the non-appearance of the minister in charge of the revival guess he is gone; I havn't seen him lately- there was no preaching, and the disappointed people returned to their homes in an unsatisfied condition of mind.
